

Samia Rachid

Design Engineer · UX/UI & Frontend · From Wireframe to Deployment

Cologne, Germany | samia.rachid03@gmail.com | +49 178 1362 899 | Portfolio: samanae.github.io/design

PROFILE

Design engineer with a dual profile spanning design and development: I design user-centred interfaces and build them myself on the front end. Bachelor in Integrated Design (UI/UX, KISD) and a Master's degree (M.Sc.), combined with hands-on experience in HTML, CSS, JavaScript and Angular. Experienced in UX research, prototyping, design systems, data visualisation and the technical implementation of digital products — I close the gap between design and code. Four languages: German and English (C2), Arabic (B2), Japanese (A2).

EXPERIENCE

Frontend Developer

03/2022 – present

hylene GmbH, Cologne

- Built and shipped websites and interactive dashboards (Angular, Nest.js, JavaScript; version control, hosting on Microsoft Azure).
- Translated design concepts into maintainable, responsive front-end code — close integration of design and implementation.
- UX research and creation of interactive prototypes and dashboard mockups.

Freelance Art Director & Designer

07/2023 – 12/2023

We Own You, Cologne

- Concept and design of campaigns (solar energy sector) for European clients.
- Client communication from first idea to final design.

Working Student, Data Science & Design

03/2021 – 2024

TH Köln — Cologne University of Applied Sciences

- UI development, wireframing, UX design and research for digital applications.
- Data visualisation and dashboard creation with Grafana; data analysis with Python and Jupyter Notebook.
- Designed and built an online course on data visualisation for the KI-Campus.

Product Designer & Marketing

11/2018 – 05/2019

Nuromedia GmbH, Cologne

- Designed marketing assets and visual content; visual communication of research findings (EU project AFAR Cloud).
- International trade-fair communication with clients and partners.

EDUCATION

M.Sc. Product Design & Process Development

09/2023 – 06/2026

TH Köln — Cologne University of Applied Sciences

- Master's thesis: concept for a digital innovation platform — product/concept development with UX research (eight expert interviews).

B.A. Integrated Design (UI / UX)

09/2019 – 07/2023

KISD — Köln International School of Design

B.Sc. Data & Information Studies

from 09/2021

TH Köln — data visualisation & information management

International study periods:

- Kyushu University, Fukuoka (Japan) — concept design, data analysis (10/2022 – 02/2023).
- Vilnius Tech (Lithuania) — summer school: AI-driven storytelling projection (2021).

Media Designer (Mediengestalterin)

09/2016 – 09/2018

bm Bildung in Medienberufen mbH

SKILLS

Design: UI/UX design · user research · wireframing & prototyping · design systems · data visualisation · Figma · Adobe Creative Suite

Development: HTML · CSS · JavaScript · Angular · Nest.js · Git / version control · hosting (Microsoft Azure)

Other tools: Python · Jupyter · Grafana · 3D (Blender, Maya)

LANGUAGES

German — C2 · English — C2 · Arabic — B2 · Japanese — A2
