

Samia Rachid

FRONTEND DEVELOPER & UX/UI DESIGNER

Design engineer with a dual profile in design and development: I create user-centered digital products — from user flows and wireframes through prototypes to implementation-ready UI designs — working closely at the intersection of design and engineering. Bachelor's in Integrated Design (UI/UX, KISD), Master's (M.Sc.) with a focus on process development. Experience with Figma, design systems, UX research, usability testing, and technical implementation in HTML, CSS, JavaScript, and Angular. Portfolio: samanae.github.io/design

03.03.1998

CITIZENSHIP

German

PLACE OF BIRTH

Köln

WORK HISTORY

Working Student, Web Design & Frontend

08/2025 - 07/2026

TH Köln – Institut für Technologie und Transfer (ITT), Köln

- Concept and design of the website for the research group "Integrated Land and Water Research" (PolyUrbanWaters project) — from wireframe to implementation
- Creation of Figma mockups, design system components, and handoff documentation
- Evaluation and selection of CMS/no-code platforms (Webflow, Framer, WordPress)
- Structuring complex content into a clear, user-friendly information architecture

Frontend Developer

09/2023 - 07/2025

hylane, Köln

- Development of user-centered websites and interactive dashboards (Angular, TypeScript, Nest.js, JavaScript)
- Agile collaboration in a Scrum team; sprint delivery in close coordination with stakeholders
- Integration and connection of REST APIs and CMS systems
- Translation of design concepts into maintainable, responsive frontend code — close alignment between design and implementation
- UX research and creation of interactive prototypes and dashboard mockups
- Version control and hosting via Microsoft Azure

Working Student, Data Science & Design

03/2021 - 2024

Technische Hochschule Köln, Köln

- UI development, wireframing, UX design, and research for digital applications
- Data visualization and dashboard creation with Grafana; data analysis with Python and Jupyter Notebook
- Concept and implementation of an online course on data visualization for KI-Campus

Freelance Art Director

07/2023 - 12/2023

We Own You, Köln

- Concept and design of campaigns (solar energy sector) for European clients
- Client communication from initial concept to final design
- Successful pitch concept for a long-term project for IPAI

Product Designer & Marketing

11/2018 - 05/2019

Nuromedia GmbH, Köln

- Design of marketing assets and visual content

- Visual preparation of research results (EU project AFAR Cloud)
- International trade fair communication with clients and partners

EDUCATION

- Engineering science, Master of Science** 09/2023 - 07/2026
 Technische Hochschule Köln, Köln
 - Produktdesign- und Prozessdevelopment (Integral Businessmanagement)
 - Conceptualization of Business Projects, Stakeholder-Analysis, empirical qualitative Research
- Integrated Design (UI / UX), Bachelor of Arts** 09/2019 - 07/2023
 KISD - Köln International School of Design, Köln
- Interdisciplinary Design (Semester abroad) - 九州大学** 09/2022 - 02/2023
 Kyushu Universität Fukuoka, Japan
 GPA: 1,3
 - Interdisciplinary Design, Geospatial Information Systems, Concept Design, Data Analytics, Mathematics
- Graphical Systems & Technology (Summerschool Lithuania)** 05/2022 - 06/2022
 VILNIUS TECH - Vilnius Gediminas Technical University, Lithuania
 GPA: 1,3
 - AI-powered storytelling projection at Vilnius City Hall to mark the city's 700th anniversary
 - Organised by the Department of Graphic Systems at Vilnius Gediminas Technical University in collaboration with the Cologne International School of Design, Tampere University of Applied Sciences and the Academy of Media Arts Cologne.
- Data & Informationscience (Interdisziplinäres Semester)** 01/2021 - 06/2021
 Technische Hochschule Köln
 GPA: 1,4
 - Data & Informationscience in Business
 - Databasemanagement
- Media, Arts & Graphic Design** 09/2016 - 09/2018
 bm Bildung in medienberufen mbH, Köln
 GPA: 1,2
 - Mediadesign, 3D Software (blender + Maya)
 - Coding

SKILLS

- Design: UI/UX design · user research · wireframing & prototyping · design systems · data visualisation · Figma · Adobe Creative Suite
- Development: HTML · CSS · JavaScript · Angular · Nest.js · Git / version control · MySQL
- Frontend Development
- Usability-Testing
- Data Management · Data Visualization & Data Management (Python, MySQL, Grafana)
- MS Office Software
- Drivers licence (B2)
